

Manas Pandya

Indian Institute of Technology Madras (Zanzibar)

City - Bweleo, Zanzibar, Tanzania

✉ manaspandya@gmail.com • 🌐 www.linkedin.com/in/manas-pandya/

📄 <https://www.github.com/manaspandya>

Summary

AI and Data Science enthusiast with hands-on experience in AI model development. Skilled in Python, Machine Learning, and Deep Learning. Strong interest in dynamics-based machine learning, DNN quantization.

Education

Program	Institution/Board	%/CGPA
Bachelors (Data Science & AI)	Indian Institute of Technology Madras Zanzibar, Tanzania	8.72/10
Senior Secondary	Sharada Mandir School Panjim, Goa, India	82%

Experience/Projects

2. Deepfake Face Detection

October 2024 - January 2025

(IEEE Participant)

IEEE (Remote)

- Participating in the [IEEE SPS Cup 2025](#) challenge, focusing on detecting deepfake facial images using real-world data captured in diverse scenarios.
- Utilizing state-of-the-art deep learning frameworks and transfer learning techniques to enhance detection accuracy.
- Keywords: IEEE, Deepfake, Face Detection, Machine Learning, Computer Vision

3. Hosted a Hackathon - Exoplanet Candidate Classification

November 2024 - December 2024

(Hackathon Host)

IIT Madras Zanzibar

- [Organized a hackathon](#) using Kepler data to teach AI/ML basics to juniors.
- Designed datasets and evaluation metrics for hands-on learning.
- Keywords: Hackathon, Exoplanet Classification, Kepler Data, Machine Learning

4. Kaggle ISIC Challenge

June 2024 - September 2024

(Hackathon Participant)

Kaggle (Remote)

- Achieved Bronze Medal in Kaggle's ISIC competition, securing a [rank of 178/2739 \(Top 7%\)](#).
- Developed and fine-tuned advanced CNN models for accurate skin lesion classification using ISIC dataset.
- Keywords: Kaggle, ISIC, Convolutional Neural Networks, Skin Lesion Classification, Image Processing

5. Speech Emotion Prediction

March 2024 - June 2024

(Project assistant)

IIT Madras Zanzibar

- Assisted in a senior level project on Deep Learning based speech emotion recognition for lightweight models, exploring Quantization techniques
- Keywords: Data Augmentation, Feature Engineering, Librosa, Deep Learning, MLP, Quantization

6. Techathon in AI/ML

April 2024 - May 2024

(Bachelors/ Team Competition)

IIT Madras Zanzibar

- Led one of the seven joint-winning teams in an AI/ML challenge conducted by Shaastra, IIT Madras, using LSTM to perform regression on COVID-19 data to predict deaths.
- Keywords: LSTM, Machine Learning

7. Binary Classification of Industrial Casts

(Collaboration)

Dec 2023 - Feb 2024

IIT Madras Zanzibar

- Collaborated with a senior to create ensemble [ML models](#) for automating the sorting of defected and non-defected industrial casts.
- *Keywords: Machine Learning, Ensemble Classifier*

I have also actively participated in kaggle, [click here](#) to view the various competitions in which I have participated.

Research Work (Submitted for Publications)

- The papers on my work on Swahili based ASR and NLP are under review (of a double blind workshop, which prevents me from naming it)
- I am also working on Driver Safety based V2X models.

Technical Skills

- AI/ML: Deep Learning, Computer Vision, Image processing, LSTM
- Programming Language: Python
- Operating System: Windows, Kali Linux
- Tools: Latex, Visual Studio Code

Certifications

- Shaastra AI/ML Techathon: [Winning the Techathon](#) (April 2024)
- Wayspire: [AI basics](#) (May 2024)

Positions of Responsibility

- [Board Member](#)
at Entrepreneurship Cell, IIT Madras Zanzibar . (Jan 2024-Present).
